CORREVON SEEDS

Now in stock at
Moorestown, N. J.This list read from
Rep. D. PearceLIBRARY
MAR 17 1947
U.S. Department of Agriculture

We have just received a small consignment of seeds from the famed Floraire Nurseries of the Correvons in Switzerland. The seeds are supplied in original, sealed Correvon packets, just as received by us, and are offered for immediate delivery as long as stocks remain available. Since quantities of some are small, we suggest advisability of giving a short alternate-choice list on your order. Consignments of seeds of many additional varieties are expected shortly, and when these arrive, a new list will be mailed you. Please remit with order, by money order, postal note, or personal check. When remittance is by bank check, add 10¢ to the total to cover costs in connection with records and collection. Orders of less than One Dollar are not acceptable. Address all orders, and make all remittances, to CORREVON-AMERICAN, being the Correvon distributing agency in this country.

CORREVON-AMERICAN
Moorestown, N.J.

Prices are per pkt. of seeds
in American currency.

Adonis vernalis	.25	Dianthus alpinus	.30
